PFISTERER

Earthing Pole, Telescopic with Operating Head

Earthing poles consist of handle, insulating part, black ring and mounting head. The length of the insulation part has to be at least 500 mm.

PFISTERER offers optionally variants with operating head as well as with fixed mounted line clamps. The operating head for line clamps with spindle and cross pin is available as roller locking device or as bayonet-type fitting.

Technical description:

- Earthing pole of glas fiber reinforced polyester tube in yellow colour
- The black mark identifies the necessary safety distance

Picture may vary.
