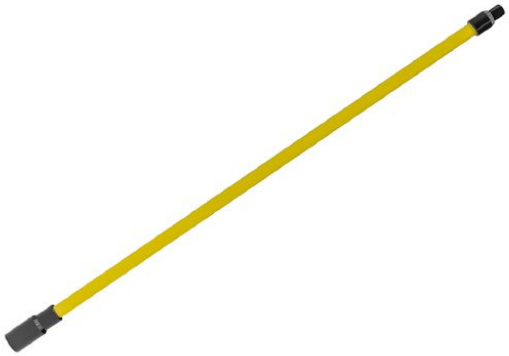
PFISTERER

Insulating pole extensions for voltage detectors

This insulating pole extension makes it simple to extend the PFISTERER insulating poles of voltage detectors. The insulating pole extension is screwed onto the existing insulating pole. This does not reduce the minimum insulation length.

These insulation pole extensions can be used for:

- KP-Test 5
- KP-Test 5 dual
- KP-Test 5L
- KP-Test 5L dual



Picture may vary.

Technical Data

Article no.	**620 518 003**
Application	**Extension**

Dimensions

Total length	**L_G (mm)**	**2060**
Diameter of insulating element	**d (mm)**	**24**
