

CONNEX Current Testing Connector, Size 4

This connector is used to carry out current tests on switchgears, transformers, transducers etc. equipped with CONNEX sockets size 4.

Picture may vary.

Technical Data

Article no.		827 093 004
Size		4
Max. testing voltage	U_{max} (kV)	5
Nominal current	I_N (A)	1600
Working place		only for testing purpose, dry
Environment temperature	(°C)	-25°C up to 50°C

Dimensions

Length outside socket	(mm)	134
Pitch circle diameter	(mm)	177
Connection thread		1 x M12
