

# Hand-Operated Compression Tool Mechanical, Type 02D

Mechanical tool with open design of the C-shaped compression head that can be rotated through 360°. The open design of the compression head allows the placement and removal of the compression pliers directly at the connection to be pressed without removing the compression dies.

## Compressible cross sections:

- Copper up to 35 mm<sup>2</sup>
- Aluminium up to 50 mm<sup>2</sup>

## Accessories:

- Case for mechanical hand compression tool, PRIMAT 02 and dies
- Holder for mechanical hand compression tool, PRIMAT 02 for clamping the tool into a vice

*Picture may vary.*
