

Hand-Operated Compression Tool Mechanical, Type 06-T

Mechanical tools with open design of the compression head. The open design of the compression head allows the placement and removal of the compression pliers directly at the connection to be pressed without removing the compression dies.

The manual crimping plier is equipped with a C-shaped crimping head that can be rotated through 360°. The telescopic handle is released and tightened by simply turning for infinitely variable length adjustment.

Picture may vary.

Technical Data

Article no.	303 871 002
Type	PRIMAT 06-T
Rotatable Compression Head	360°
Compression force	(kN) 60
compressible cross sections Cu	(mm²) 6 - 185
compressible cross sections Al	(mm²) 16 - 150
Hexagonal dies max. code number Cu	25
Hexagonal dies max. code number Al	25
Hexagonal dies max. width	(mm) 32
Weight	(kg) 3,2

Dimensions

Total length	(mm) 540 - 750
Total length, max.	(mm) 750
Total length, min.	(mm) 540
