

Compression Connector High Voltage similar to DIN 46267-2, 150 mm² RM/SM

with through-hole for non-tension connections of medium-voltage cables.
The compression joints are suitable for paper- and plastic-insulated cables. They bear double markings and can be either round compressed or hexagonally compressed, depending on cable type and voltage level.

Picture may vary.

Technical Data

Article no.	305 337 001
Type	non-tension Al
Conductor cross section	(mm²) 150
Diameter of conductor	Ø (mm) 15,7
Material	Al
Surface	uncoated
Number of compressions, hexagonal hydraulic	2-2
Number of compressions, hexagonal mech.	4-4
Code number round	22 HR
Code number hexagonal	25
Blind hole	no

Dimensions

Dimension D1	d₁ (mm)	105
Dimension D	d (mm)	16,5
Dimension L	(mm)	105
