

Strain Clamp for Insulated Overhead Lines (ABC)

particularly suitable for straining domestic service lines. The clamp is installed without any tools and enables you to work easily and quickly. The wedge-shaped clamp is self-adjusting.

Material:

- External body: steel, hot-dipped galvanised
- Insert: fibre glass-reinforced plastic

Picture may vary.

Technical Data

Article no.		332 161 161
Number of conductor		2
Conductor cross section	(mm ²)	16 - 25
Mounting hole	Ø (mm)	22
Maximum permissible continuous load	(N/mm ²)	40
Breaking strength of clamp, min	(N)	6000

Dimensions

Length	(mm)	230
