

Earth clamp E2

PFISTERER offers a comprehensive range of earth connection clamps for earthing and short-circuiting devices. In different versions, these earth connection clamps are designed for various earth connection variants outdoors and in indoor installations.

Technical description:

- Compact and robust design
- Easy handling
- Connection to earthing and short-circuiting device with screw M12

Picture may vary.

Technical Data

Article no.	360 419 004
Area of application	Switchgear, Overhead Line
Max. cross section of connected cable	(mm ²) 70
Max. short-circuit current	I _k 1 s (A) 13800
for circular conductors	Ø (mm) 2 - 30
for flat conductors	(mm) 2 - 30
Clamping range	(mm) 2 - 30
Weight	(g) 370
