

# Contact wire earthing clamp P52D

This contact wire earth clamp is fitted with a rigid spindle and is used for grooved, circular or shaped conductors.

## Technical description:

- With feeler rod for easy application onto the contact wire
- The spring-mounted thrust block is connected to the M12 connecting screw on the back by means of flexible copper straps

## Material:

- Body made of cast copper, electro-tinned
- Thrust blocks and spindle of high-strength copper alloy, electro-tinned
- M12 A2 steel connecting screw
- Feeler rod made of spring steel, electro-galvanized
