

Fuse-tong, 20° angled

This fuse tong is suitable for replacing high-voltage fuses in switchgears.

Technical description:

- 20° angled
- Rapid adjustment using the double-threaded spindle
- Inclined clamping jaws
- Mechanical overload coupling prevents the tong's head from fracture.
- Suitable for indoor and outdoor use, but not usable in rain or snow.
- Designed and type-tested according to DIN VDE 0681 Parts 1 und 3.

Picture may vary.

Technical Data

| | | |
|-----------------|---------------------|--------|
| Article no. | 363 280 000 | |
| Application | Fuse-tong | |
| Nominal voltage | U _n (kV) | 1 - 36 |

Dimensions

| | | |
|--------------------------------|---------------------|------|
| Total length | L ₀ (mm) | 1250 |
| Transporting length | (mm) | 1250 |
| Length of insulating element | L _i (mm) | 525 |
| Length of handle | L _H (mm) | 530 |
| Diameter of insulating element | d (mm) | 43 |
| Penetration depth | A _i (mm) | 195 |
