

## Insulating Pole

This insulating pole is suitable for use on **installations** with nominal voltages **up to 30 kV**. It consists of a handle, a hand protection disc, an insulating part, a limiting disc and an operating head.

### Technical description:

- Operating head with roller locking device
- Suitable for indoor and outdoor use, but not in rain or snow
- Red ring as visible limit of penetration depth
- Limiting disk as hand guard
- Insulating poles made of yellow fibre-glass reinforced polyester tube
