

Cable Support for T-Joints Size 6-S (2-way side)

Characteristics:

- Allows centric guidance and fixation of the cable
- Absorbs transverse forces in continuous operation, during tests and in the event of a short circuit
- Cable clamp set to be ordered separately to match the outer diameter of the cable
- Requires mounting brackets on the joint

Scope of delivery:

- Cable support for one side of the joint

Suitable for following joints:

- CONNEX T- Joint Size 6-S (2-exit side)
