

Cable Support for Elbow Joints Size 5-S bis 6-S

Characteristics:

- Allows centric guidance and fixation of the cable
- Absorbs transverse forces in continuous operation, during tests and in the event of a short circuit
- Cable clamp set to be ordered separately to match the outer diameter of the cable
- Requires mounting brackets on the joint

Scope of delivery:

- Cable support for one side of the joint

Suitable for following joints:

- CONNEX Elbow Joints Size 5-S, 6, 6-S
