

# CONNEX Separable Connector, Size 0, up to 24 kV

For cables that are not produced according to DIN VDE, a unique item number for the required MV-CONNEX cable connectors from size 0-3-S is determined using a product configurator. To do this, the form must be filled out to determine the MV-CONNEX cable connectors. The unique item number is made up of a master number and a variant number and contains all parts needed to connect and earth the cable in question.
