

CONNEX Elbow Bushing, Size 0, for GIS, up to 24 kV

Application:

- Elbow Bushing for mounting into GIS
- Insulating medium: SF₆ gas

Characteristics:

- Testing of GIS in factory due to short time amount for plugging the accessories
- Assembly time is significantly reduced and safe assembling guaranteed
- Touch-proof and maintenance-free

Picture may vary.

Technical Data

Article no.	827 109 107	
Size	0	
Max. system voltage	U _m (kV)	24
Nominal voltage	U _n (kV)	20
Conductor Earth Voltage	U ₀ (kV)	12
Applicable standards	EN 50180-3	
Cone length inside transformer	(mm)	107
Max. operating voltage air	U _m (kV)	6
Thread	M10	
Working place	indoor and outdoor	
Insulation medium	gas	
Rated lightning impulse withstand voltage BIL	(kV)	125
Nominal current	I _N (A)	250
Max. dynamic short circuit current	(kA)	40
