

CONNEX Insulator, Size 1, up to 24 kV

Only for indoor use.

By using appliance connecting isolators air-insulated switching stations can be equipped with shock-proof cable connections. Switching and cable connection areas can thus be easily sheltered.

The size 1 and 2 appliance connecting isolators are suitable to be fitted to sheets that are 2 - 2.5 mm thick.

Breaking force $P_n = 5\text{ kN}$

Creepage distance 340 mm

BIL 125 kV

AC-test 54 kV/1 min

Picture may vary.

Technical Data

Article no.	827 113 011
Size	1
Max. system voltage	U_m (kV) 24
Connection thread	M12
Application	indoor
Remark	Silicone-free production process
Nominal current	I_N (A) 630

Dimensions

Diameter c	\varnothing (mm) 62
Diameter d	\varnothing (mm) 95
