

# CONNEX Grounding and Current Testing Connector, Size 0, $I_n = 250\text{ A}$ , $U_{\max} = 2\text{ kV}$ , outdoor-resistant

This connector permits to carry out current tests on switchgears, transformers, transducers etc. fitted with CONNEX sockets.

For the electrical and mechanical connection, the connector is inserted into a CONNEX socket of equal size and bolted. The test lead is connected to the terminal stud with a screw.
