PFISTERER

CONNEX Grounding and Current Testing Connector, Size 1, $I_n = 630 \text{ A}$, $U_{max} = 2 \text{ kV}$, outdoor-resistant

This connector permits to carry out current tests on switchgears, transformers, transducers etc. fitted with CONNEX sockets.

For the electrical and mechanical connection, the connector is inserted into a CONNEX socket of equal size and bolted. The test lead is connected to the terminal stud with a screw.

Picture may vary.

Technical Data

	827 181 011
	1
	indoor and outdoor
(°C)	-25°C up to 50°C
U _m (kV)	2
I _N (A)	630
	1 x M12
(kg)	1,3
	U _m (kV)

Dimensions

Length outside socket	(mm)	45
Pitch circle diameter	(mm)	95
