

Assembly, Earthing and Protective Cap, Size 5-S

Whether in a confined space or as a quickly available field installation cable: with the aid of the assembly cap, the HV CONNEX plug connector is shrink-wrapped in the pretensioned state, and is therefore fully assembled for plugging into a socket. The assembly cap also serves as an earthing cap and protective cap.

Application:

- Preassembled pluggable cable connector for all XLPE cables
- Preassembled field installation cable

At a glance:

- Installation, earthing and protection in one
- Possible to install test cables in horizontal position
- Installation anywhere, any time
- Waterproof and dustproof, resistant to seawater

Picture may vary.
