

Supported Outdoor Termination EST123-C31-SUB, 123 kV, dry-insulated

For substations

The EST SUB is the safe and cost-effective solution for substation. The cable connection and supporting elements are installed independently of each other. The cable termination is installed on the cable on the ground and subsequently raised up into the supporting structure.

- Quick and easy to install
- Oil- and gas-free - leak-proof
- Maintenance-free
- 100% electrically individually tested
- Proven technology

Technical Data

Article no.	EST123-C31-SUB	
Max. system voltage	U _m (kV)	123
Type Termination	dry-insulated, supported, for substations (EST-SUB)	
Applicable standards	IEC 60840	
Rated lightning impulse withstand voltage BIL	(kV)	550
Conductor cross section	(mm ²)	150 - 2500
Diameter over cable insulation - prepared	(mm)	46.0 - 114.5
Minimum creepage distance	(mm)	3075
Min. arcing distance	(mm)	1325
