

# Supported Outdoor Termination EST72-C19-SUB, 72.5 kV, dry-insulated

## For substations

The EST SUB is the safe and cost-effective solution for substation. The cable connection and supporting elements are installed independently of each other. The cable termination is installed on the cable on the ground and subsequently raised up into the supporting structure.

- Quick and easy to install
- Oil- and gas-free - leak-proof
- Maintenance-free
- 100% electrically individually tested
- Proven technology

## Technical Data

Article no.		EST72-C19-SUB
Max. system voltage	U <sub>m</sub> (kV)	72,5
Type Termination		dry-insulated, supported, for substations (EST-SUB)
Applicable standards		IEC 60840
Rated lightning impulse withstand voltage BIL	(kV)	325
Conductor cross section	(mm <sup>2</sup> )	95 - 1200
Diameter over cable insulation - prepared	(mm)	32.5 - 64.4
Minimum creepage distance	(mm)	1813
Min. arcing distance	(mm)	906
